## Press Release

FOR IMMEDIATE RELEASE

### **RS Series RM and SM Air Conditioned Server Rack**

Rackmount and Sidemount air conditioned server racks from 2000 BTU to 10,000 BTU

Garland, TX -- Based on the patented frame design of the RS server rack series, the new air conditioned rackmount and sidemount temperature controlled server racks allow installation of sensitive electronics in harsh environments.

All units use a CFC-free or environmentally safe refrigerant that is universally accepted.

The unique condensate management system evaporates moisture from enclosure to ambient air eliminating drain tubes, buckets and wet floors. High CFM blowers are used for maximum airflow throughout the enclosure. Mounting gaskets, drawings and instruction manual are standard with each system.

Each server rack assembly includes:

- 3 sets of "L" shaped infinitely adjustable square hole vertical mounting rails
- Base, low-profile casters and leveling feet
- Removable side panels
- Smoked Lexan front door with lockable swing handle. (Solid available if desired)
- Steel rear door with lockable swing handle
- Solid top and bottom panels
- Complete gasket sealing for doors, panels and A/C unit
- Rackmount or Sidemount A/C unit. BTU to be determined
- Durable powder coat finish, 7 stock colors available
- Server rack ships completely assembled

Standard online configurations available in 42u, 44u, 48u, depths of 30" and 36" and 19"w

Also available in heights: 14u, 24u, 30u, 35u; depths: 24" and 42"; widths: 23", 24", 28"

Standard Rackmount A/C available in 2000 BTU, 4000 BTU. Higher available

Standard Sidemount A/C available in 2000 BTU, 4000 BTU. Higher available

Manufactured in the USA, using American processed steel, these cabinets are built in an ISO 9001-2000 certified facility.

In addition to Telecom, Network and IT applications, this enclosure is ideal for any indoor application where a secure, cooled environment is required.
