Press Release

FOR IMMEDIATE RELEASE

Garland, TX -- **RS Series NETWORK Large Cable Bundle Rack**

Large Cable Bundles are no problem in this rack! With an ample 4.25" - 6" space on either left or right side of the cabinet, you can drop cables without crowding or pinching. Maintain the security of a locked enclosure with the new NETWORK Series of server racks from Rackmount Solutions!

Each server rack assembly includes:

- 2 sets of "L" shaped infinitely adjustable square hole vertical mounting rails
 - Rails adjust left to right for 19". When justified to the left or right side of cabinet, an additional 4.25" - 6" of space from mounting rail to inside of side panel is available for cable drop. Rails are recessed 3" from front and rear.
 - As an alternate, rails can be set to standard 23"w. If requirements change, rails simply slide and fasten back to 19"w, left, right or center, no need to purchase a new rack.
- Removable side panels
- Extruded perforated (63% open) front door with lockable swing handle (plexi, vented or solid option)
- Steel perforated rear door with lockable swing handle
- Solid top panel with (2) 4.5" grommeted cable access holes with covers (fan top options)
- Base, low-profile casters and leveling feet
- Durable powder coat finish, 7 standard colors
- Ships completely assembled

Available in 40u, 42u, 44u, 48u, useable depths of 24", 30" and 36"

Manufactured in the USA, using American processed steel, these cabinets are built in an ISO 9001-2000 certified facility.
